

BORN TO BE WILD

**ADAMSON**

BORN TO BE WILD

## EAGLES FLY ALONE, AND BIRDS FLY IN FLOCKS.

We are unwavering in our commitment to offering top-notch firearms. We aim to build long-term, fruitful relationships with our partners, understanding that the defense industry demands persistence, resilience, and a keen eye for innovation. We're here to help you succeed in your endeavors.

---

**ADAMSON**

YOUR  
DREAM  
IS YOUR OWN

Here we have a blend of craftsmen with generations of skills behind them working in unison with the state of the art CNC machines and other advanced technology. So it is a partnership of sorts, the advanced machines can make precision parts but it takes the skilled craftsmen to do the finishing, the wood to metal fitting and polishing and well all what it takes to make it look like a work of art.

# XDEFENSE

XDefense Semi-Automatic Shotgun features Auto-Regulating Gas- Operated (ARGO) system: a simple, self-cleaning, piston-driven action. The unique, short-stroke, dual-piston design has a gas ported located just forward of the chamber, resulting in less fouling and more reliable cycling. Pistons push directly against the bolt, for faster operation and minimal vibration. This eliminates any extra weight from any connecting linkages or heavy action bars under the forend.

The result: Marine-tough reliability, for the harshest environments. A black synthetic collapsible stock features a textured pistol grip. The 18½” barrel includes an adjustable ghost ring rear sight, and fixed blade front sight, plus interchangeable Mobile choke tube. A picatinny rail awaits your optics (not included). The drilled and tapped receiver is ready for the elements, in an anodized black finish.

RAMSON

MADE IN EUROPE

Our range of merchandise  
ideally unites tradition with  
innovation. Together, our highly  
developed sense of quality and  
traditionally courteous customer  
service results in an outstanding  
performance record and reputation.

upc codes

A true work of art does not simply appear  
out of nowhere. It begins as an idea in the  
minds of its creator, who then turns that  
idea into a tangible form through his skill and  
artistry. For the final creation to be genuine,  
this process must remain uninterrupted  
from conception to completion.

Thanks to the use of advanced technology our products unite excellent ballistic performance  
and superb functional qualities on an industrial level following high standards. All models are  
manufactured with elegant design and functional qualities that transform a good gun into a  
great gun.

# ADAMSON

Nobody is coming to save you. Save yourself...

The result:  
A gun that itself a work of art, as individual as its owner.
